**1. Right of return and instruction** you can return any goods without giving any reason within a period of two weeks. This period starts, at the earliest, upon receipt of the goods and of this information. Only in the case of goods that are unsuitable for sending in parcel form (bulky goods) can you explain that you will be returning the goods in text form, that is, by letter, fax or e-mail. To keep the period it is enough to forward the goods or the demand of withdrawal in time. To avoid unnecessary costs, please do not ship your returns freight forward (i.e.: postage has to be paid by the recipient) or with special forms of shipment. Please include the receipt of the costs of return. After having received your returned goods and an appropriate processing time we will credit you the purchase price (less the potentially accrued compensation for lost value) and possibly the shipping return costs in amount of the package costs of Spanish Post (Spanish post office). Costs for special forms of ship unasked by us (e.g. freight collect basis) will not be reimbursed. The return shipment or the returns claims has to be sent to:

**Email:** [info@marineriggingsupplies.com](mailto:info@marineriggingsupplies.com)

Unsealed audio or video cassettes, DVDs, CDs, software, data carriers and other media on data carriers, books, sea maps, goods that have been cut or processed according to the customer's request (e.g. ropes, chains, cables, splice works, hoses, tubes, bands, plates, rubber, deck surfaces, rails, underlays, wires and others) customized products and magazines are excluded from this return policy. This right of return does not apply to entrepreneurs and not to contracts that came about other than through telecommunication channels.

## **2. Consequences of return**

In the case of the application of the right of returning the goods, the services received or the advantages of usage (e.g. benefit from usage) have to be returned. In the event that the goods have deteriorated, compensation may be demanded. This does not apply if the deterioration is only caused by the check of the product as it would be possible in a retail store. In addition, you can avoid the obligation of compensation by not using the good as your own and by refraining it from anything that can reduce its value. Also part of this is to not break or damage the seals of goods (e.g. bottles, cans, and others). If you avail yourself of your exchange or return right, the contract with you is cancelled (right of rescission).

## **3. Delivery and shipping costs**

**3.1 Shipment within Spain** You will receive your delivery via the least expensive way. The flat rate for product shipments within Spain is from 9.50 EUR. You may choose a different way of shipment (e.g. Saturday delivery, express, UPS, or others) as long as this shipment type is available to us in general. You will be charged with any additional costs. The additional costs will also be charged if you use your 14-day right of return. For any articles that cannot be mailed by regular postal service or for which special types of shipment are necessary (bulky goods, pyrotechnical articles, batteries and others) we charge an additional delivery charge. Possible damages caused during transport are insured through us.

## **3.2 Shipment within the EU**

You will receive your delivery via the least expensive way. We only charge the actual costs of transport including packaging. Here you will have the opportunity to use additional services. The costs incurred thereby will still be charged if you use your 14-day right of return. Possible damages caused during transport are insured through us. The costs of return shipment are paid by the customer.

## **3.3 Worldwide shipment**

Of course we offer worldwide delivery for your order. The calculation excludes value added tax (VAT). We only charge the actual costs of transport including packaging. Here you will have the opportunity to use additional services. The costs incurred thereby will still be charged if you use your 14-day right of return. Possible damages caused during transport are insured through us. Please check for extra costs for possible customs duties as well as the import turnover tax. We have no influence and often no information on the current taxes and customs duties. The costs of return shipment are paid by the customer.

#### **4. Warranty and guarantee**

In the event that a delivered article displays evidence of material or manufacturing defects, including possible transport damage, please report such problems to us or the parcel service that dispatched your package immediately. In case you receive your package via freight forwarding and the packaging and/or the article is damaged please report such problems at the freight forwarding driver. Please have this report confirmed in writing. For any defects or problems with the item that appear before the expiration of the legal warranty (12 months), the customer may choose any of the actions to which he/she is entitled: subsequent performance in the form of repair (rework) or product replacement (subsequent delivery). In case subsequent performances are only possible at disproportionately heavy expense, we have the right to choose subsequent fulfilment. In case the customer's request necessitates an effort out of all proportion to the customer's interest we have the right to refuse subsequent fulfilment. This also comes into effect, if the supplementary performance is not possible. Except from this warranty / guarantee are damages which occur as a result of natural wear, inappropriate usage and lacking or wrong care. Any additional liability especially in combination with consequential damages and claims for damages of any type that exceed the value of the part delivered, are excluded. Complaints and discrepancies do not release the customer from his/her payment obligation.
